Comments/Description

Established in 2012, Nord Anglia International School Al Khor welcomes students aged 3 to 14 years. Understanding that learning, how we learn and the ability to harness skills and knowledge are the keys to success, the school's learning focused philosophy equips students with the tools they will need to be confident, active leaders in the global communities of tomorrow.

Nord Anglia International School Al Khor is a genuinely ambitious school community where the highest quality learning is driven by outstanding teachers within a culture of pride and respect. This, we believe, will empower our students to succeed. The implemented curriculum is broad and balanced, drawing on the best academic practices from across the world. The British National Curriculum, combined with both the International Primary and Middle Years Curriculum, ensures that our students have creative and challenging learning experiences that will prepare them for GCSE, IGCSE, A-Levels and beyond. The school has been accredited as a school that nurtures a sense of pride in both individual and collective achievements as well as instilling a culture of respect from all, for all, both locally, by Qatar National Schools Accreditation (QNSA) and internationally, by British Schools Overseas (BSO) and British Schools of the Middle East (BSME).
