Description
-------------

For 25 years SEARCH ASSOCIATES has been one of the world's leading educational recruitment consultancies, supporting and advising international schools and teachers and senior managers wanting to work in them. The group is a close partnership of 18 consultants who all have extensive experience of international school management. SEARCH ASSOCIATES places well over 3000 candidates worldwide every year, ranging from heads of top international schools to young newly qualified teachers.

David Cope (Executive Vice-President of SEARCH ASSOCIATES) is the partner mainly responsible for helping British schools overseas. Each year he screens and registers large numbers of well qualified teachers (primary and secondary) and senior management candidates, almost all with successful UK experience. Heads or Board members of British schools overseas are welcome to contact David Cope at any time to discuss their staffing needs, both in general and with regard to specific vacancies.
