Description

Established in 1865, Trutex has been providing British superior quality schoolwear for generations. Recently, we have opened our own office and distribution centre in Dubai, and will be on hand to service all uniform and sportswear requirements.

We offer an extensive range of standard products from girl's skirts and junior boy's trousers to shirts and blouses and blazers, all available for immediate despatch.

Our bespoke uniform service includes the best design processes as well as the widest choice of fabrics, colours and embellishment options. This means that schools have complete flexibility in designing a truly unique uniform, and the Trutex quality standard assures consistency every time the uniform is manufactured, year after year.
