Description

WCBS International has a wealth of experience in the independent and international schools sector having worked exclusively with fee-paying schools in the UK and worldwide for many years.

Well-established throughout Europe, Asia, the Middle East, Africa and Latin America, we provide a helpline service with dedicated operating hours for international schools, and we deliver on-site consultancy to help schools get the best out of their system.

WCBS International has developed intelligent management solutions to address all aspects of school information management. These include:

- 3Sys Academic – an innovative, fast and flexible browser-based solution for all academic and administrative requirements. Suitable for multiple curricula, 3Sys Academic streamlines administration, enabling teachers to maximise teaching time
- Pass Finance – the market leading complete billing solution, tailored for fee-paying schools, with optional integrated financial management modules. Pass Finance allows you to manage and control your school's finances with accurate, real-time information
- School Admin – a central database that securely stores records for all core contacts, staff and pupils from admissions to alumni
- School Portal – provides easy access to key information for parents and pupils anytime, anywhere. School Portal's online payment facility improves cash flow by allowing bill payers to view and pay bills quickly and easily

online

- webALUMNUS – a hosted alumni management system to help you build communities of former pupils, drive fundraising and manage your school's development activities.

To find out more about the leading information management solutions from WCBS, visit www.wcbs.co.uk/wcbs-international or contact sales@wcbs.co.uk.

Testimonials:

"Using 3Sys gives me the whole picture of a student and enables me to use my time more efficiently and effectively"

Liz Bushfield, The English Academy (Kuwait)

"With 3Sys, we now have a system where academic information is stored centrally and we can manipulate it in the way we want to use it. Our goal was to become an 'Outstanding School' within three years, so getting all the data in the right place with 3Sys is a key contributing factor..." Jeff Smith, Director at Deira International School (UAE)
