Description

For 27 years, World Challenge has specialised in the provision of leadership, teamwork and personal development training for young people. Ensuring the very best in safety and back-up, challenging student led expeditions take place overseas for 14-18 year olds in 45 destinations worldwide. Our overseas expeditions are offered to all Middle East countries with us also adding a progressive programme to our portfolio which includes delivery of residential expeditions within the United Arab Emirates. Our core overseas programme can also compliment the IB Diploma through the CAS requirement for those schools and colleges that offer this as well as the International Award. World Challenge is a wholly owned subsidiary of TUI Travel.
