---

ABQIS (Baushar) is an established and successful school, now looking to expand so as to be able to offer our students even greater choices and opportunities in the years ahead. ABQIS is a business entity of the Al Omania Education Services , in turn a fully owned subsidiary of Iskan Oman Investment Company SAOC, and, as such, is well positioned to offer continuity, stability, and progressive development from KG to Grade 12 (Reception to Year 13).Teaching and Admin staff are drawn from all corners of the world, creating a truly international atmosphere. The school is committed to providing ongoing professional development for staff linked to a performance appraisal programme to ensure that the strategies, methods and resources used reflect the standards of best practice from around the world. Although the vast majority of our students are Omani Nationals, ABQIS is positioned to be a leading provider of education to both Omani and foreign families seeking an international style of education for their children. At ABQIS we integrate many aspects of traditional British schools eg. we operate special weekly assemblies, and a House System to foster competition in sport and academia.
