Comments/Description				

Al Rabeeh School is a caring, family school with a strong sense of national identity. We have a very supportive parent family who are involved in all areas of school life. Most of the teaching staff are British or have several years of experience teaching the National Curriculum for England. There is also a very strong Arabic and Islamic Studies Department staffed by well qualified Arab teachers.

The school has a high commitment to academic success and providing a well-rounded education. Our teachers are committed to challenging and inspiring each student to achieve their dreams and to become passionate learners. Teachers strive to make learning relevant and fun, while increasing children awareness of 21st Century learning skills in order to prepare them for a rapidly changing world.

I joined Al Rabeeh School in August 2014, with 12 years of successful headship in the UK and in International Schools. My teaching experience of 23 years spans Early Years, Primary and Secondary phases, including mainstream and schools for Special Educational Needs. I am passionate about creating and maintaining a positive and progressive environment for pupils and staff, to learn and further develop individual interests, talents and abilities. I hope you will want to join us and be part of an exciting future at Al Rabeeh School.
